When somebody should go to the books stores, search start by shop, shelf by shelf, it is in reality problematic. This is why we give the book compilations in this website. It will definitely ease you to look guide **Pointed Them North Recollections Cowpuncher** as you such as.

By searching the title, publisher, or authors of guide you truly want, you can discover them rapidly. In the house, workplace, or perhaps in your method can be every best area within net connections. If you intention to download and install the Pointed Them North Recollections Cowpuncher, it is unconditionally simple then, since currently we extend the member to purchase and make bargains to download and install Pointed Them North Recollections Cowpuncher therefore simple!

Thank you utterly much for downloading **Pointed Them North Recollections Cowpuncher**. Most likely you have knowledge that, people have see numerous time for their favorite books like this Pointed Them North Recollections Cowpuncher, but stop happening in harmful downloads.

Rather than enjoying a good PDF taking into consideration a mug of coffee in the afternoon, on the other hand they juggled as soon as some harmful virus inside their computer. **Pointed Them North Recollections Cowpuncher** is easy to get to in our digital library an online admission to it is set as public thus you can download it instantly. Our digital library saves in combined countries, allowing you to get the most less latency period to download any of our books past this one. Merely said, the Pointed Them North Recollections Cowpuncher is universally compatible when any devices to read.

If you ally infatuation such a referred **Pointed Them North Recollections Cowpuncher** books that will offer you worth, acquire the unquestionably best seller from us currently from several preferred authors. If you want to hilarious books, lots of novels, tale, jokes, and more fictions collections are as a consequence launched, from best seller to one of the most current released.

You may not be perplexed to enjoy every book collections Pointed Them North Recollections Cowpuncher that we will enormously offer. It is not more or less the costs. Its nearly what you need currently. This Pointed Them North Recollections Cowpuncher, as one of the most effective sellers here will extremely be in the course of the best options to review.

Right here, we have countless ebook **Pointed Them North Recollections Cowpuncher** and collections to check out. We additionally give variant types and next type of the books to browse. The okay book, fiction, history, novel, scientific research, as skillfully as various new sorts of books are readily to hand here.

As this Pointed Them North Recollections Cowpuncher, it ends in the works monster one of the favored ebook Pointed Them North Recollections Cowpuncher collections that we have. This is why you remain in the best website to see the incredible ebook to have.

In the pages of Montana's Charlie Russell, the Montana Historical Society offers you its collection of Russell art. Each of the 230 artworks has been painstakingly photographed using state-of-the-art equipment to show off the masterful details of Russell's brushwork. The colors have been carefully proofed against the originals for a perfect match. The result is a catalog of Russell's art as you've never seen it before. Stare down the herd bull as a hundred buffalo surge out of the Missouri River bottom. Jump clear of a cowboy on a twisting bronc that scatters the morning coffee and biscuits. Feel the spine-tingling drama as Indians pause behind a rocky outcropping, setting an ambush for white travelers in the valley below. Through Charlie's art and through text written by Russell experts Jennifer Bottomly-O'looney and Kirby Lambert, you will experience Montana as Charlie knew it. From Montana he learned how to shift for himself in rough country. And wherever Charlie went, his hands were busy—sketching or painting on any scrap he could find, or modeling bits of wax into tiny figurines. His experience as a cowboy gave these artworks an authenticity not found in the work of any other western artist. Even as the Montana frontier transformed itself into a modern state, Charlie lived for the past, capturing in his artwork “trail that had been plowed under.” The buffalo days and the free range have long since ended, but Charlie's art endures. Through his work, you can experience the Montana that was—and the best collection of that work is found in the galleries of the Montana Historical Society and in Montana's Charlie Russell. Charles M. Russell is our most beloved artist of the American West. His paintings, sketches, sculpture, illustrated letters, and stories are an unequalled legacy. Lavishly illustrated with more than

200 color and black-and-white reproductions of Russell's greatest works, this beautiful volume features essays by Russell experts and scholars who address important aspects of the artist's life and career. Inside the book is a unique key code that allows purchasers to access a private online catalogue of more than 4,000 works Russell created and signed during his lifetime. Original owners of the book will have unlimited access to the site after registering a secure personal identification and password. First published in 1935, *Pilgrims of the Wild* is Grey Owl's autobiographical account of his transition from successful trapper to preservationist. With his Iroquois wife, Anahereo, Grey Owl set out to protect the environment and the endangered beaver. Powerful in its simplicity, *Pilgrims of the Wild* tells the story of Grey Owl's life of happy cohabitation with the wild creatures of nature and the healing powers of what he referred to as "the great Northland" of "Over the Hills and Far Away." A bestseller at the time, *Pilgrims of the Wild* helped establish Grey Owl's international reputation as a conservationist. His legacy of warnings against the degradations of nature and the dangers of industry live on, despite the posthumous revelation that he wasn't, in fact, the First Nations man he claimed to be. *Stories of the Cowboys and Cowpunchers* by a genuine Cowboy. "If Chaucer were a Texan writing today . . . this is how he would have written and this is how he would have felt." — *New York Times* *In Leaving Cheyenne* (1963), which anticipates *Lonesome Dove* more than any other early novel, the stark realities of the American West play out in a mesmerizing love triangle. Stubborn rancher Gideon Fry, resilient Molly Taylor, and awkward ranch hand Johnny McCloud struggle with love and jealousy as the years pass. E. C. Abbott was a cowboy in the great days of the 1870's and 1880's. He came up the trail to Montana from Texas with the long-horned herds which were to stock the northern ranges; he punched cows in Montana when there wasn't a fence in the territory; and he married a daughter of Granville Stuart, the famous early-day stockman and Montana pioneer. For more than fifty years he was known to cowmen from Texas to Alberta as "Teddy Blue." This is his story, as told to Helena Huntington Smith, who says that the book is "all Teddy Blue. My part was to keep out of the way and not mess it up by being literary.... Because the cowboy flourished in the middle of the Victorian age, which is certainly a funny paradox, no realistic picture of him was ever drawn in his own day. Here is a self-portrait by a cowboy which is full and honest." And Teddy Blue himself says, "Other old-timers have told all about stampedes and swimming rivers and what a terrible time we had, but they never put in any of the fun, and fun was at least half of it." So here it is—the cowboy classic, with the "terrible" times and the "fun" which have entertained readers everywhere. First published in 1939, *We Pointed Them North* has been brought back into print by the University of Oklahoma Press in completely new format, with drawings by Nick Eggenhofer, and with the full, original text. From boudoirs to brothels, historian Michael Rutter takes you into the intimate world of the Wild West's women of the night. Eighteen richly researched biographies reveal the tricks and torments of the trade, with fascinating sidebars on venereal diseases (and dire "cures"), children of prostitutes, a floating brothel, and hog ranches. Round-ups, trail drives, a lynching, mail order romances, blacksmithing, bunkhouse humor, Indians, the Blizzard of 1885-86, cattle barons, Calamity Jane, the rise & demise of the open-range cattle era—Rueben Mullins experienced the West as it will never be again. His original first-hand account languished in archival collection until now, 100 years after he rode the open-range, Mullins's story has been published to high praise by historians, literary review publications, & readers: "... (this) memoir represents as real a record of life in the West as exists anywhere..."--RED NECK REVIEW OF LITERATURE. "...full of specific & carefully observed details about round-ups, horse breaking...& all the day-to-day affairs that are so conspicuously absent from THE VIRGINIAN or even from THE LOG OF A COWBOY..."--TEXAS BOOKS IN REVIEW. "...'perzactly' the sort of book True West readers love most!"--TRUE WEST. "Reuben B. Mullins could ride & write!"--BLOOMSBURY REVIEW. "This well-rounded narrative is reminiscent of such range classics as Teddy 'Blue' Abbot's WE POINTED THEM NORTH & Andy Adams' THE LOG OF A COWBOY"--B. Byron Price, Executive Director, National Cowboy Hall of Fame. Finalist: 1989 Ben Franklin Awards. Wyoming Historical Association Award. Describes the life of the landscape architect responsible for New York's Central Park and Boston's Emerald Necklace including his lesser-known time spent as an influential journalist, early voice for the environment and abolitionist, all overshadowed by a tragic personal life. Wise, humorous, and sometimes shocking book about 'the problems of being a sheep and a few of the problems of the people who care for them.' In *Sailors and Sexual Identity*, author Steven Zeeland talks with young male sailors--both gay- and straight-identified--about ways in which their social and sexual lives have been shaped by their Navy careers. Despite massive media attention to the issue, there remains a gross disparity between the public perception of "gays in the military" and the sexual realities of military life. The conversations in this book reveal how known "gay" and "straight" men can and do get along in the sexually tense confines of barracks and shipboard life once they discover that the imagined boundary between them is not, in fact, a hard line. The stories recounted here in vivid detail call into question the imagined boundaries between gay and straight, homosexual and homosocial, and suggest a secret Pentagon motivation for the gay ban: to protect homoerotic military rituals, buddy love, and covert military homosexuality from the taint of sexual suspicion. Zeeland's interviews explore many aspects of contemporary life in the Navy including: gay/straight friendship networks the sexual charge to the Navy/Marine Corps rivalry the reality behind sailors' reputations as sexual adventurers in port and at sea men's differing interpretations of homoerotic military rituals and initiations sex and gender stereotypes associated with military job specialties how sailors view being seen as sex objects Everyone interested in the issue of gays in the military, along with a general gay readership, gay veterans, and gay men for whom sailors represent a sexual ideal, will find *Sailors and Sexual Identity* an informative and entertaining read. Visit Steven Zeeland at his home page: <http://www.stevenzeeland.com> "The best all-around study of the American cowboy ever written. Every page crackles with keen analysis and vivid prose about the Old West. A must-read!" — Douglas Brinkley, author of *The Wilderness Warrior: Theodore Roosevelt and the Crusade for America* The open-range cattle era lasted barely a quarter century, but it left America irrevocably changed. *Cattle Kingdom* reveals how the West rose and fell, and how its legacy defines us today. The tale takes us from dust-choked cattle drives to the unlikely splendors of boomtowns like Abilene, Kansas, and Cheyenne, Wyoming. We meet a diverse cast, from cowboy Teddy Blue to failed rancher and future president Teddy Roosevelt. This is a revolutionary new appraisal of the Old West and the America it made. "Knowlton writes well about all the fun stuff: trail drives, rambunctious cow towns, gunfights and range wars . . . [He] enlists all of these tropes in support of an intriguing thesis: that the romance of the Old West arose upon the swelling surface of a giant economic bubble . . . *Cattle Kingdom* is *The Great Plains* by way of *The Big Short*." — *Wall Street Journal* "Knowlton deftly balances close-ups and bird's-eye views. We learn countless details . . . More important, we learn why the story played out as it did." — *New York Times Book Review* "The best one-volume history of the legendary era of the cowboy and cattle empires in thirty years." — *True West* Every time a cowhand dug his boot into the stirrup, he knew that the ride could carry him to trail's end. With real stories told by men who were cowboys before the 1930s, this book captures the everyday

perils of the flinty hoofs and devil horns of an outlaw steer, the crush of a half-ton of fury in the guise of a saddle horse, the snap of a rope pulled taut enough to sever digits. Whether destined to be remembered or forgotten, a cowhand clung to life with all the zeal with which he approached his trade. Did Tom Horn kill Willie Nickell? He was a death sentence to rustlers and the devil incarnate to homesteaders in late nineteenth-century Wyoming. Did Tom Horn commit the 1901 murder of the fourteen-year-old son of a sheep-owning homesteader who had stolen from the cattle barons ranges? If not, who did? Cheyenne author Chip Carlson, in this, his third book, answers these questions and others with the monumental results of more than ten years of research into primary sources. Who were Tom Horn's other victims? Was there collusion on the part of three governors in two Colorado murders? How could the jury return a verdict of guilty in Tom Horn's trial in the face of evidence that someone else was the killer? Why did Tom Horn's parents flee to Canada? Was there jury tampering and bribery? Why did Tom Horn say I would kill him and be done with him? What was the role of schoolteacher Glendolene Kimmell, and where did she end her years? Tom Horn, the most notorious of Wyoming's range detectives and a pre-eminent name in Wyoming history, operated unchecked until he was arrested for the murder of Willie Nickell. The murder and questionable nature of Horn's conviction still ignite firestorms of controversy in Wyoming. Before he was hanged Horn said, I have lived about fifteen ordinary lives. I would like to have had somebody who saw my past and could picture it to the public. It would be the most god damn interesting reading in the country. Now author Chip Carlson provides that reading. E. C. Abbott was a cowboy in the great days of the 1870's and 1880's. He came up the trail to Montana from Texas with the long-horned herds which were to stock the northern ranges; he punched cows in Montana when there wasn't a fence in the territory; and he married a daughter of Granville Stuart, the famous early-day stockman and Montana pioneer. For more than fifty years he was known to cowmen from Texas to Alberta as "Teddy Blue." This is his story, as told to Helena Huntington Smith, who says that the book is "all Teddy Blue. My part was to keep out of the way and not mess it up by being literary.... Because the cowboy flourished in the middle of the Victorian age, which is certainly a funny paradox, no realistic picture of him was ever drawn in his own day. Here is a self-portrait by a cowboy which is full and honest." And Teddy Blue himself says, "Other old-timers have told all about stampedes and swimming rivers and what a terrible time we had, but they never put in any of the fun, and fun was at least half of it." So here it is—the cowboy classic, with the "terrible" times and the "fun" which have entertained readers everywhere. First published in 1939, *We Pointed Them North* has been brought back into print by the University of Oklahoma Press in completely new format, with drawings by Nick Eggenhofer, and with the full, original text. In thirteen stories full of rope burns and brush scratches, the author of the classic *Horse Tradin'* tells of the days when he made a specialty of catching wild cows. Ben K. Green calls himself a "stove-up old cowboy," and readers of this book will learn soon enough where the broken bones came from. Green tells of his adventures with wild steers, sharing with readers the years he worked in thorny brush and canyon country delivering those animals that were too wily or too wild for the normal roundup. Finding them was hard, even dangerous, work. Few cowboys looked for such chores. Green declares, "I got real good at it, but of course in those days I didn't know any better." *A Texas Cowboy* is an unchanged, high-quality reprint of the original edition of 1886. HANSEBOOKS is editor of the literature on different topic areas such as research and science, travel and expeditions, cooking and nutrition, medicine, and other genres. As a publisher we focus on the preservation of historical literature. Many works of historical writers and scientists are available today as antiques only. HANSEBOOKS newly publishes these books and contributes to the preservation of literature which has become rare and historical knowledge for the future. "I've known about Ike Blasingame all my life, knew many of his fellow punchers, white and Indian. Ike was certainly a salty representative of the Texas bronc twister when he came North with that most romantic of cow outfits, the British-owned Matador. . . . [He] takes the reader across the treacherous Missouri River as the spring-softened ice goes out under the horses' feet, into the still wild cow towns, through the round-ups, the prairie fires. . . . There is the authentic smell and feel of the Northern cow country of fifty years ago in the story Ike Blasingame tells." -Mari Sandoz "Here is one of the most gripping Western tales since Andy Adams' *The Log of a Cowboy* was published in 1903. The telling is considerably like Adams'-warm, human, flavorful. The author, a one-time Matador ranch cowboy, . . . lived his story, and he tells it straight in the language of the cow country without contrivance." -*New York Times* "Many of the cowboys who have written about their experiences never really looked at any wider segment of the cattle business than was visible between their horses' ears, but Ike Blasingame did. He paints a big picture without omitting details." -*New York Herald-Tribune* One of the most colourful chapters in the history of North American settlement began in the 1880s when the rich Alberta grasslands spreading east from the foothills of the Rockies became the magnet for cattle ranching. Award-winning *Cattle Kingdom* provides readers with all the colourful tales of raffish characters, political intrigues and partnerships, fortunes made and lost, and the harsh realities of prairie winters. The era also gave us the mythic figure of the cowboy, still prominent in Alberta today. Nowhere is the story of ranching more rich and varied than in Alberta. There was an assortment of high rollers, big-money men from the east, English lords and remittance men, along with refugees from the American west and ordinary folk seeking a homestead and a new dream. The newly formed North West Mounted Police was on hand as well. Famous ranches were created during this period, including the Cochrane, the Oxley and the North West Cattle Company (Bar U). The cast of characters included John Ware; the brave and foolhardy Major-General Thomas Bland Strange, who had plans for a ranch for retired British army types; and the scrappy Pat Burns, who parlayed a small slaughterhouse in Calgary into a giant meat-packing and cattle empire. By the time of the first Calgary Stampede in 1912, the cattle kingdom was on the wane. More and more settlers arrived and began fencing and farming the once limitless grazing lands. And then came the discovery of oil. But during its brief and brilliant season in the sun, early ranching in Alberta put an indelible stamp on the history and culture of the Canadian west. *Images of America: West Texas Cattle Kingdom* relates the frontier saga of cowboys and longhorn cattle, of trail drives and great ranches. Cattle and horses were introduced to the Western Hemisphere by Spanish conquistadores and colonizers while Mexican vaqueros handled cattle from horseback, developing special techniques, equipment, and attire. Half-wild longhorns multiplied into the millions in the unpopulated brush country above the Rio Grande. After the Civil War, a hungry market for beef developed in the north. Texas "cow boys" learned the vaquero skills of roping and branding and adapted heavy-duty Mexican saddles, wide-brimmed hats, high-heeled boots, jingling spurs, leather chaparejos, and colorful bandanas. The adventure of driving large herds of cattle up the Chisholm Trail and other famous trails captivated America. Vast Texas ranches included the fabled King Ranch, the three-million-acre XIT, Charles Goodnight's JA Ranch, and El Rancho Grande of legendary Shanghai Pierce, who described himself as "Webster on cattle, by God." "What, if anything, is western about western American autobiography? The essays in this anthology explore the idea of place as it is revealed in a variety of texts rooted in the West - from a

bestselling memoir that connects environmental disruption with the impact of disease on a family, to a Paiute woman's personal history presented in defense of her public activities, to a famous folksinger's "novel" of his life. Whether studying writers such as Terry Tempest Williams, William Kittredge, and Woody Guthrie or lesser known men and women whose autobiographies are grounded in western America, this thorough volume of criticism and scholarship seeks to understand the ways the West takes shape in "lifewriting" as landscape, language, or state of mind."--BOOK JACKET. Among all the literature published on gays in the military, Steven Zeeland's first book remains one of a kind. *Barrack Buddies and Soldier Lovers* is a raw, unsanitized personal record of conversations the author had with young soldiers and airmen stationed in Frankfurt, Germany. Zeeland's intimate involvement with these men enabled him to document in honest, visceral terms the day-to-day reality of gay military men's lives and how they work, play, and, in many instances, how the military actually helped them come out. Ironically, despite the military's antigay policies, these men found that military service placed them in environments where they had to come to terms with their erotic feelings for other men, and sent them overseas to places where they found greater freedom to explore their sexuality than they could have back home. While a few of Zeeland's buddies were targeted for discharge, most portray an atmosphere of sexually tense tolerance and reveal a surprising degree of openness with straight co-workers and roommates. The 16 fascinating interviews in *Barrack Buddies and Soldier Lovers* challenge popular assumptions and stereotypes about gay men in the military and provide significant information on: gay military sexual networks, male sexual fluidity in barracks, life strategies for survival as a gay or bisexual male in the U.S. military, German-American relations, attitudes toward the gay ban. The casual, conversational structure of *Barrack Buddies and Soldier Lovers* makes it a richly entertaining read. No other book provides such a warm and intimate portrait of the lives of young gay soldiers and airmen. Visit Steven Zeeland at his home page: <http://www.stevenzeeland.com>

First published by Mountain Press in 1970 and in print nearly continuously through several editions by different publishers, *Mile High Mile Deep* is once again available through Mountain Press. Part memoir, part novel, Richard Kilroy O'Malley's compelling coming-of-age story captures life in Butte in the 1920s, when the city was a lusty, two-fisted copper camp. Written with sensitivity and feeling, this wonderful book brings to life the Irish, Scandinavians, Slavs, Cornishmen, Syrians, Greeks, Finns, and Italians who scratched a living in the boisterous mining city. First as observers and then as participants, Dick and his friend Frank see and feel the stark power of the mines--a mile high in the blue sky of Montana, but a mile deep, too, in the sweat and gloom of the underground shafts that trapped and destroyed. In February of his forty-fourth year, journalist David McCumber signed on as a hand on rancher Bill Galt's expansive Birch Creek spread in Montana. *The Cowboy Way* is an enthralling and intensely personal account of his year spent in open country—a book that expertly weaves together past and present into a vibrant and colorful tapestry of a vanishing way of life. At once a celebration of a breathtaking land both dangerous and nourishing, and a clear-eyed appreciation of the men—and women—who work it, David McCumber's remarkable story forever alters our long-held perceptions of the "Roy Rogers" cowboy with real-life experiences and hard economic truths. In February of his forty-fourth year, journalist David McCumber signed on as a hand on rancher Bill Galt's expansive Birch Creek spread in Montana. *The Cowboy Way* is an enthralling and intensely personal account of his year spent in open country—a book that expertly weaves together past and present into a vibrant and colorful tapestry of a vanishing way of life. At once a celebration of a breathtaking land both dangerous and nourishing, and a clear-eyed appreciation of the men—and women—who work it, David McCumber's remarkable story forever alters our long-held perceptions of the "Roy Rogers" cowboy with real-life experiences and hard economic truths. The author recounts his experiences as a neurosurgeon and explores the spirituality that transcends life-threatening illness and the importance of doctors being open to the power of the soul. A narrative biography traces Granville Stuart's trajectory from his youth in an Iowa agricultural settlement, to his rough-and-tumble life in Montana and his rise to prominence as a public figure in the American West, in a study that illuminates the conflicting realities of the frontier. John Quincy Adams Taylor was a young cowboy in Texas in the 1870's. He became a leader on long cattle drives up the Chisholm trail. These experiences were more complex and dramatic than is generally understood. John dictated these experiences - as well as his later years raising a young family - to his oldest daughter, Edith, in the winter of 1938 to 1939. In the 1970's Edith transcribed her handwritten materials to typewritten form and privately published the resulting book as "Talking Guns". Two of John's great-grandsons, Francis R. Jones, and Rondall E. Jones, have prepared these inherited materials for modern publication while maintaining the full integrity of the original dramatic stories. Herein are rare and authentic glimpses into the cowboy experience in Texas and on the Chisholm Trail in the last quarter of the 19th Century. Reading them may be the closest thing to a first-hand experience of that era that the reader can have. In 1886, Robert Coburn bought 30,000 acres of land from Granville Stuart. The tract lay in the long shadows of the Little Rockies of Montana, and Coburn called it a "cattleman's paradise." Then the still-remembered blizzard of the following winter erased half of his stock. This is the story of how Coburn overcame long odds, proved that the Circle C was, indeed, the paradise he envisioned, and emerged as one of the progressive men of Montana. But the history of the ranch is also a sturdy thread upon which the author has strung character sketches of the redoubtable ranchers, cowboys, Indians, and outlaws who played out their hands on or about the spread. Robert's son Walt Coburn's account of the rise and decline of an early-day cattle empire is a portrait of real westerners in real situations. E. C. Abbott was a cowboy in the great days of the 1870's and 1880's. He came up the trail to Montana from Texas with the long-horned herds which were to stock the northern ranges; he punched cows in Montana when there wasn't a fence in the territory; and he married a daughter of Granville Stuart, the famous early-day stockman and Montana pioneer. For more than fifty years he was known to cowmen from Texas to Alberta as "Teddy Blue." This is his story, as told to Helena Huntington Smith, who says that the book is "all Teddy Blue. My part was to keep out of the way and not mess it up by being literary.... Because the cowboy flourished in the middle of the Victorian age, which is certainly a funny paradox, no realistic picture of him was ever drawn in his own day. Here is a self-portrait by a cowboy which is full and honest." And Teddy Blue himself says, "Other old-timers have told all about stampedes and swimming rivers and what a terrible time we had, but they never put in any of the fun, and fun was at least half of it." So here it is?the cowboy classic, with the "terrible" times and the "fun" which have entertained readers everywhere. First published in 1939, *We Pointed Them North* has been brought back into print by the University of Oklahoma Press in completely new format, with drawings by Nick Eggenhofer, and with the full, original text. Published to accompany the exhibition *Indian Country*. A colorful account of five centuries of cowboy culture details the life, history, customs, status, job, equipment, and more of the cowboy from sixteenth-century Spanish Mexico to the present. An exciting story of a Texas Ranger, adventurer, and immigration officer who became a symbol of his age while gambling with death in the wild frontier regions of Texas,

Arizona, and Old and New Mexico. Charles Goodnight knew the West of Jim Bridger, Kit Carson, Dick Wooton, St. Vrain, and Lucien Maxwell. He ranged a country as vast as Bridger ranged. He rode with the boldness of Fremont, guided by the craft of Carson. His vigorous zest for life enabled him to live intensely and amply, and in this book by J. Evetts Haley, himself no stranger to the West, provides a fully readable and important western biography, vividly told, thrilling, witty, and completely authentic. Reproduction of the original: *The Log of a Cowboy* by Andy Adams
